

Pressure Gauges and Thermometers.

Jet range pressure gauges and thermometers are designed for optimum safety and accuracy. The options in this guide have been selected for their suitability for use within a sealed system. Please ask in branch for our extended range

▲ Pressure Gauge

50mm Diameter Pressure Gauges

- Bourdon tube copper alloy
- Black steel case
- Acrylic window
- ¼" BSP bottom or back entry male connection
- Direct mounting
- Dual scale bar and psi
- Accuracy class 2.5 to BS EN 837-1:1998

100mm and 150mm Diameter Pressure Gauges

- Bourdon tube copper alloy
- Black steel case
- Acrylic window
- Chrome plated bezel
- ¾" BSP bottom entry male connection
- Direct mounting
- Dual scale bar and psi
- Accuracy class 1.6 to BS EN 837-1:1998

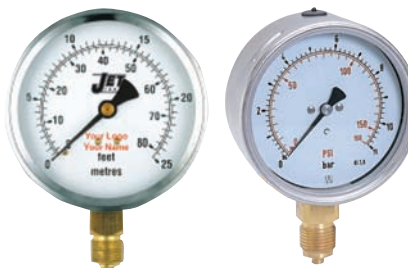

Technical Data for 50mm Diameter

Cat. No.	Description
N20510	Pressure gauge 0 -6 bar & psi bottom entry
N20511	Pressure gauge 0 -6 bar & psi back entry
N20512	Pressure gauge 0 - 16 bar & psi bottom entry
N20513	Pressure gauge 0 -16 bar & psi back entry

Technical Data for 100/150mm Diameter

Cat No. 100mm	Cat No. 150mm	Description
N20590		Pressure gauge 0 -2.5 bar & psi
N20591	N20605	Pressure gauge 0 -4 bar & psi
N20592	N20606	Pressure gauge 0 - 6 bar & psi
N20593	N20603	Pressure gauge 0 -10 bar & psi
N20594		Pressure gauge 0 -16 bar & psi
N20595		Pressure gauge 0 -25 bar & psi
N20955		Back flange for 100mm dia pressure gauge

LARGE SELECTION AVAILABLE

Including Logo Gauges and Industrial Gauges
